

# INSTRUCTIONS

## Paper Plate Ark

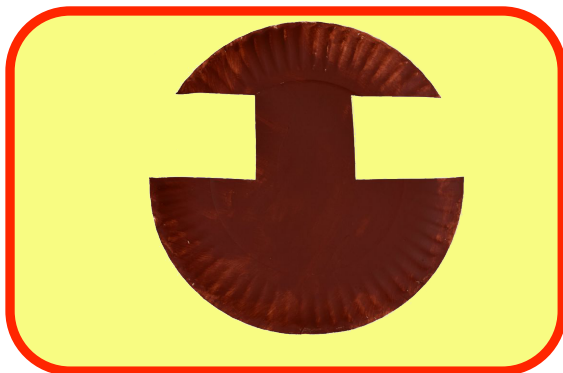

**You will need:** paper plate, brown paint, paintbrush, glue, scissors, pens/pencils

Paint the paper plate brown (if it's a shiny plate mix PVA glue with the paint to help it stick). Let it dry completely.

Carefully colour and cut out the pairs of animals for the ark.

Cut a section out of each side of the plate to create your ark.

Stick your pairs of animals to the ark.
