

Plastic Bottle Jellyfish

You will need: candle, scissors, plastic bottle, permanent markers/nail varnish, string, googly eyes, glue.

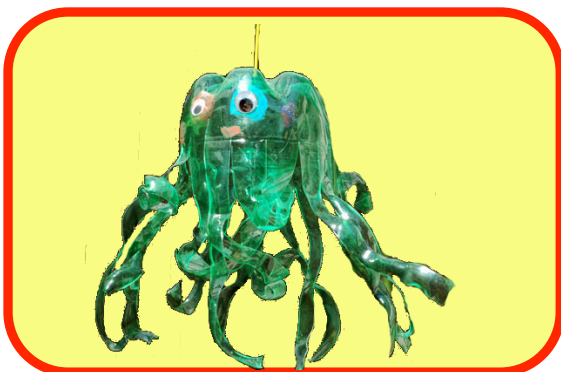

Carefully remove the top of the bottle with scissors

Cut the rest of the bottle into strips, almost to the bottom.

WITH ADULT SUPERVISION ONLY:
Melt the strips by starting at one end, then going to the other, and finish by curling the end of the strip.

Decorate your jellyfish with nail polish/permanent markers and glue on googly eyes. Tie some string or make a hole in the top for string to hang your jellyfish.
