

INSTRUCTIONS

Bottle Shark Catch Game

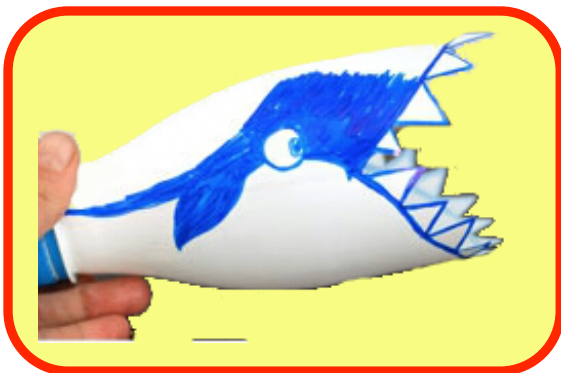

You will need: plastic bottle, small plastic pot & bead, string, permanent markers, scissors, PVA glue.

Use permanent marker to draw shark head on the bottle.

Carefully cut out the teeth. If you cut individual teeth it will be sharp so you may want to leave it as the image on the left.

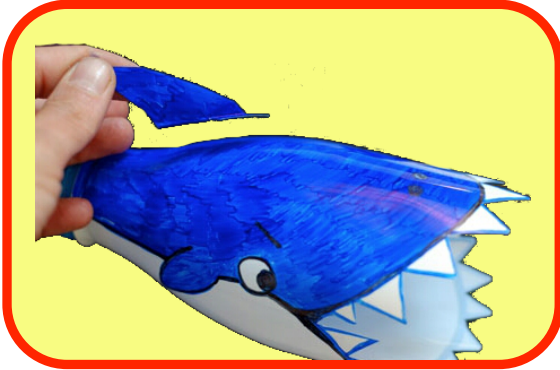

Colour your bottle with permanent markers.

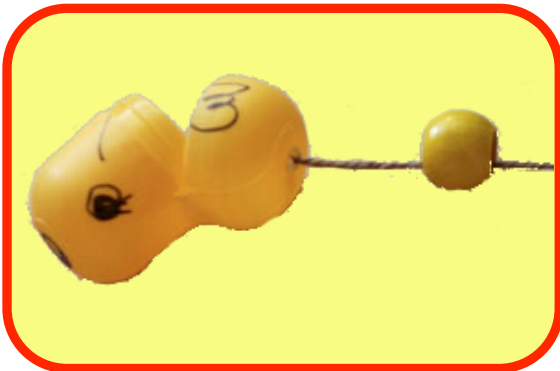

Cut a fin from the left over plastic bottle.

INSTRUCTIONS

Bottle Shark Catch Game

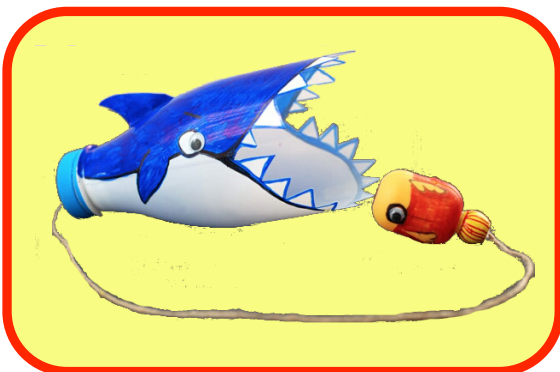

Colour it and stick it with PVA glue and let it dry or use sticky tape.

Make a hole in one end of the small pot and thread string through the hole and tie securely. Close the pot and thread a bead to be a tail and tie a knot to secure it.

Decorate the small pot and bead to look like a fish. (Maybe use googly eyes).

Tie the other end of the string to the top of the bottle by the lid. You can now have your shark catch the fish...if you can master the game!
